#49 Ukwa nalis Road,
Kingcome Inlet, B.C., V0N 2B0
Reception: 250-974-3047
Fax: 250-974-3008
Administration: 250-974-3049
Email: emwillie@kingcome.ca
Email: emwillie@gmail.com

To teachers who applied for the Primary and Intermediate Teacher positions at Lilawagila School. This information is compiled to orient you to our community.

Travel and freight to our extreme remote isolated community makes it expensive to live here. To save money on freight and transportation you must be creative, plan ahead, problem solve and practice patience. The most important purchase to live in our community is knee high gum boots for the river. (Kingcome slippers)

I would like to find a teacher committed to the education of our children, who is willing to stay longer than one year, depending on our nominal roll and if you fit into our community, In the past the students have had to get used to a new teacher each year for three years in a row.

Kingcome Inlet is a small extreme remote isolated village, in a beautiful spiritual valley, about five miles up along the Kingcome River, surrounded by mountains and wilderness, accessible only by boat or seaplane. The nearest port of entry is by boat or plane is Port McNeill on Vancouver Island and by plane from Campbell River on Vancouver Island.

We have over 500 on our band list; fewer than 100 live in the village year round. Our people used to fish and log but now our main employer is the Dzawada'enuxw First Nation, Band Office, Health Centre and School.

The name of our tribe is Dzawada'enuxw, we are in the Kwakwaka'wakw language group, there are a few fluent speakers left so learning our language is important. The Dzawada'enuxw practice the Potlatch System through our hereditary chiefs. Helen Willie teaches our Language and Culture Program and at the end of the school year the students will host a Yayuma, they will sing and perform dances in our Ceremonial House for the community and distribute gifts after the performance.

The Kingcome River is fed by a glacier and has different types of salmon, but not sockeye, Trout and Ooligans. White fish, crab, prawns, herring can be caught in the Inlet and shell fish can be

harvested in our traditional territory. Our community members hunt seal, duck, geese and deer. Our community fishes and renders Ooligan oil, smokes Ooligans. The salmon are canned or jarred fresh, smoked or barbequed or dried.

Harvest:

- Salmonberry, Huckleberry, Salalberry, Thimbleberry, Blackberry, Goose Berries are harvested to make jam or dried. I hear there is wild cranberries up the river, I haven't heard of anyone harvesting yet.
- A few people grow vegetable gardens, our goal is that more people will learn to garden, the school has access to one of the raised beds between the school and the Health Centre and each year the Primary and Intermediate Classes garden.
- There is a traditional root garden at the mouth of the river.
- Medicine from our environment is still harvested and used.
- Cedar bark stripping is done to make dance regalia and baskets.

Wildlife:

- **Grizzly Bears and Black Bears** are monitored by community members by radio phone, they normally pass through but if they hang around too long then they are killed. There has not been too many in the last two years. I have never heard of an attack on a human in our village.
- **Cows** that were left from an abandoned farm down the river sometimes come into our village
- **Wolves**, I've lived here 21 years and heard of them in the village two times, the last time they were in the village one dog went missing and one that was tied up was killed. I have never heard of an attack on a human in our village.
- **Cougars**, I have never seen one but I hear them sometimes, they sound like a baby or women screaming loudly, there are warnings when one is around the village. I have never heard of an attack on a human in our village.
- When there is wildlife scares, the people with vehicles will drive community members to and from work.
- **Mountain Goats**, I have seen them with binoculars on a mountain. I want to get a telescope.
- **Sea Lions, in the Inlet**
- **Seals, in the inlet and in the river**
- **Otters, in the river**
- **Birds:** Ducks, Geese, Crane, Swans, Eagle, Hawks, Raven, Seagull, Grouse, Owls, Blue Jays, Crows, in the spring there are all kinds of birds passing through the village (birdwatchers paradise)

Floods:

- Kingcome Village is on a flood plain. Every year we have one or two floods so our homes are built up and we can't really use our basements although many people do and if there is a flood they need to lift everything up. They usually are from 1 foot to four feet high. The code for building a house on a flood plain now is 10 feet off the ground. On Sept. 25, 2010 we had the worse flood I've ever experienced; approximately 8 feet, our

community was evacuated for a month. The newer homes were ok but the older homes got flooded inside. Lilawagila School is the emergency evacuation point, it is built 10 feet off the ground and has a helicopter landing pad. Now as soon as we know it will flood we will come to the school with our bedding and food and wait it out. The flood goes down in a couple of days and is usually no problem.

Sports:

- Our sport is soccer, there is a Wolf Men's Team and a Wolverines Ladies Team and most of the players live off reserve. There are Annual First Nation Soccer Tournaments in Squamish, Duncan, Victoria, Campbell River, and Alert Bay. Our students enter or join teams in the June Sports Tournament in Alert Bay. Need volunteers to train the youth and fundraisers to take them to at least the tournament in Alert Bay.
- Hockey Night in Canada, the Canucks are the favourite.
- Indian Baseball, is played on our grassy field
- Kids play outside in summer, Guard the Chief and Ranchi Brown
- We played Volleyball before and entered tournaments in Port Hardy and Alert Bay.
- Gym, there is a gym attached to the school which the community uses at night and weekend. School staff is welcome to volunteer to open, monitor and close the gym. The community members play indoor soccer, volleyball, floor hockey, basketball. The children have balls, hoops and other toys to play in the gym. The school also has a ping pong table.
- The school atrium and gym are available for exercise classes, the atrium has a big flat screen on the wall to play DVD's and an Xbox.
- Hiking, Camping, Fishing, Canoeing, Kayaking,

Orientation to Kingcome Inlet

Travel: By air or boat depends on **weather and tide**. In the winter we sometimes have to break a path in the ice to cross the river, climb a slippery bank, get a ride on a truck on a logging road down to the mouth of the river, climb down a slippery river bank, and get on a river boat to the government dock to catch a plane or bigger boat to Vancouver Island.

Air:

Wilderness Seaplanes Port Hardy 1800-343-5963

Pricing may have changed, no time to revise

- Port Hardy to Kingcome \$176.00
- Wed (Mail plane) departing 1:30am approx. 45 min. Straight run
- Up to two hours depending on how many stops (mail run)
- Freight Passenger allowed 45 pounds, then it costs .95 Lb. After allowable freight
-

- Mon, Wed & Fri departing 2:00am Summer Approx. 40 min. Straight run
- 1 to 2 passengers \$185. Plus tax each one way
- 3 and over \$149. Plus tax each way
- Up to two hours depending on how many stops
- Freight Kingcome resident allowed 60 pounds, non resident \$30 pounds, \$1. a pound after allowable freight

Corilair Campbell River to Kingcome 1-888-287-8366 Charter only

Pacific Coastal Airlines Campbell River to Vancouver Google

Private Boat: Ideal dream

- Small vehicle in Kingcome to get your freight from the beach to your accommodation.
- Small river boat to get passengers and freight up and down the river.
- Covered boat to get you from Kingcome to Van Island. You would have to anchor at the Government dock in the Inlet.
- Vehicle in Port McNeill

Water Taxi: Water taxis must be chartered; you could arrange for passengers and freight both ways to keep cost down. Call Band office to find out if there is a charter coming in or you can arrange one yourself. **Costs may have gone up, have to phone to revise.**

- Les Dawson and Diana Dick Seats 3 or 4 \$180. Each & .80 lb. freight
- Joe Willie Seats 5 or 6 \$100.00 each
- SeaWolf Adventures seats 10 \$850.00
- Gwa was Protector seats 12 approx. \$800.00
- 250-668-3825
- Silver King Marine Charters seats 12 approx. \$1200.00 plus tax
- 250-956-4047
- MacKay Whale Watching seats 45 approx. \$2800.00 plus tax
- 250-956-9865

River:

- \$30 up to \$50 (if you have lots of freight), Plane dock to village each way
- **Joe Willie** **250-974-3011** **covered jet boat**
- **Les Dawson** **250-974-2009** **covered jet boat**

Campbell River	Town Centre Inn	250-287-8866	Breakfast coupon
Campbell River	Coast Discovery Inn		
Campbell River	Comfort Inn (new)		

Pets:

The Housing Committee does not allow pets inside the Teacherages. Your pets would have to stay outside on your porch. I cannot guarantee their safety. All the dogs have been neutered and spayed and I have not witnessed any fights since they were fixed but they used to pack and beat up dogs. The dogs in Kingcome are not trained, they live outside, they warn us of wild animals.

I hope this is helpful, If you have any questions, please email me and I will do my best to answer. The prices may have changed, please google or call to confirm prices.
